

Champions Edu Website Documentation

Project Information

Project Name: Champions Edu Website & Management System

Version: 2.0

Frontend: React.js

Backend: Raw PHP (Core PHP REST API)

Database: MySQL

1. Project Overview

Champions Edu is a modern educational website with an integrated management system developed using **React.js** for the frontend and **Raw PHP** for the backend.

The platform allows visitors to explore the institution, students to access learning resources, teachers to manage classes and attendance, tutors to register online, and administrators to manage the complete system from a centralized dashboard.

2. Technology Stack

Frontend

- React.js
- HTML5
- CSS3
- JavaScript
- Bootstrap / Tailwind CSS

Backend

- Raw PHP (Core PHP)
- REST API

Database

- MySQL

Web Server

- Apache
 - XAMPP / cPanel
-

3. Website Pages

Home

The homepage introduces Champions Edu and highlights its services.

Sections include:

- Hero Banner
 - About Preview
 - Featured Courses
 - Why Choose Us
 - Latest Blog Posts
 - Edu Hub Preview
 - Contact Section
-

About

The About page contains:

- Institution Overview
- Vision
- Mission
- Core Values
- Faculty Details
- Team

- Student Achievements
 - Gallery
-

Courses

Displays all available courses.

Each course contains:

- Course Image
 - Course Name
 - Description
 - Trainer
 - Duration
 - Schedule
 - Enroll Button
-

Blog

Educational articles and announcements.

Features:

- Categories
- Search
- Comments
- Related Posts

Admin can:

- Add Blog
 - Edit Blog
 - Delete Blog
-

Edu Hub

Learning resource section.

Contents:

- PDF Notes
- Study Materials
- Recorded Videos
- Previous Year Question Papers
- E-books

Students can download learning resources.

Career

Career opportunities at Champions Edu.

Applicants can:

- View Vacancies
- Apply Online
- Upload Resume

Admin can:

- Add Jobs
 - Edit Jobs
 - Delete Jobs
 - View Applications
-

Contact

Includes:

- Contact Form
- Google Map
- Phone Number
- Email Address
- Office Address

Admin receives all enquiries through the dashboard.

4. User Roles

The system contains four user roles.

Visitor

Visitors can:

- Browse website
 - View Courses
 - Read Blogs
 - Access Edu Hub
 - Apply for Careers
 - Contact Champions Edu
 - Register as Teacher/Tutor
-

Student

Students can login and access only:

- Dashboard
- My Profile
- Attendance
- Class Links
- Study Materials

Students can:

- View Personal Details
 - View Attendance
 - Join Online Classes
 - Download Notes
 - Download Study Materials
 - Update Profile
-

Teacher

Teachers can login and access:

- Dashboard
 - My Profile
 - Create Classes
 - Upload Notes
 - Upload Videos
 - Upload Study Materials
 - Record Student Attendance
 - View Student List
 - Share Class Links
-

Administrator

Administrator has complete control over the entire website and management system.

5. Student Management System

Admin can manage all students.

Features:

- Add Student
- Edit Student
- Delete Student
- Search Student
- View Student Profile
- Assign Batch
- Upload Student Photo
- Export Student List

Student Information

- Name
- Admission Number
- Parent Name
- Phone
- Email
- Address
- Class
- Batch

- Photo
-

6. Teacher Management

Admin can:

- Add Teacher
- Edit Teacher
- Delete Teacher
- View Teacher Details
- Assign Classes
- Assign Subjects

Teacher Details

- Full Name
 - Employee ID
 - Qualification
 - Experience
 - Subjects
 - Contact Details
 - Photo
-

7. Teacher Class Management

Teachers can:

- Create Class
 - Upload Notes
 - Upload Study Materials
 - Upload Videos
 - Record Attendance
 - Share Online Meeting Links
 - View Assigned Students
-

8. Attendance Management

Teachers can mark attendance.

Attendance Status

- Present
- Absent
- Leave
- Holiday

Admin can view attendance records.

Students can view only their own attendance.

9. Tutor Registration

Tutors/Teachers can register online.

Registration Form includes:

- Full Name
- Mobile Number
- Email Address
- Address
- Qualification
- Experience
- Subject Expertise
- Preferred Classes
- Resume Upload
- Passport Photo

Registration Process

1. Fill Registration Form
2. Upload Documents
3. Pay Registration Fee
4. Submit Registration
5. Admin Review
6. Approval or Rejection
7. Login Credentials Sent

10. Teacher Registration Payment

Teacher registration requires online payment.

Payment Features

- Secure Payment Gateway
- Registration Fee Collection
- Payment Verification
- Transaction ID
- Payment Status
- Payment History
- Email Confirmation

Supported Methods

- UPI
- Debit Card
- Credit Card
- Net Banking
- Wallet

Additional Payment Gateway Integration Charge

Payment gateway integration is **not included** in the website development cost.

An **additional ₹4,000** will be charged for:

- Payment Gateway Account Creation Assistance
- API Configuration
- React Frontend Integration
- Raw PHP Backend Integration
- Payment Verification
- Callback/Webhook Setup
- Live Testing
- Production Deployment

Additional Cost: ₹4,000

Payment gateway provider transaction charges and annual maintenance fees (if applicable) are charged separately by the payment provider.

11. Course Management

Admin can

- Add Course
 - Edit Course
 - Delete Course
 - Upload Course Image
 - Assign Teacher
 - Update Course Details
-

12. Admin Dashboard

Dashboard Overview

- Total Students
 - Total Teachers
 - Total Courses
 - Active Classes
 - Contact Messages
 - Career Applications
 - Blog Statistics
-

Dashboard Modules

Student Management

- Student List
- Add Student
- Edit Student
- Delete Student
- Search Student

Teacher Management

- Teacher List
- Add Teacher
- Edit Teacher
- Delete Teacher
- Assign Classes

Tutor Management

- Registration Requests
- Approve Registration
- Reject Registration
- Tutor Details

Course Management

- Add Course
- Edit Course
- Delete Course

Blog Management

- Add Blog
- Edit Blog
- Delete Blog

Edu Hub Management

- Upload Notes
 - Upload PDFs
 - Upload Videos
 - Delete Materials
-

Career Management

- Add Jobs
 - Edit Jobs
 - Delete Jobs
 - View Applications
-

Contact Management

- View Contact Messages
 - Reply to Enquiries
-

13. Security Features

- Secure Admin Login
 - Student Login
 - Teacher Login
 - Password Encryption
 - Role-Based Access Control
 - Session Management
 - Secure API Authentication
-

14. Database Modules

- Users
 - Students
 - Teachers
 - Courses
 - Blogs
 - Edu Hub
 - Attendance
 - Classes
 - Contact Messages
 - Career Applications
 - Teacher Registrations
 - Payment Transactions
-

15. Development Scope

Included Features

- ✓ Responsive React Website
- ✓ Home Page
- ✓ About Page
- ✓ Courses Page
- ✓ Blog Page
- ✓ Edu Hub
- ✓ Career Page
- ✓ Contact Page
- ✓ Student Login
- ✓ Teacher Login
- ✓ Admin Dashboard
- ✓ Student Management

- ✓ Teacher Management
 - ✓ Attendance Management
 - ✓ Class Link Management
 - ✓ Study Material Upload
 - ✓ Tutor Registration
 - ✓ Teacher Registration
 - ✓ Payment Gateway Integration (Additional ₹4,000)
 - ✓ CMS Management
 - ✓ REST API using Raw PHP
 - ✓ MySQL Database
 - ✓ Responsive Design
-

17. Deliverables

The completed project includes:

- Complete React Frontend
 - Raw PHP Backend APIs
 - MySQL Database
 - Admin Dashboard
 - Student Portal
 - Teacher Portal
 - Tutor Registration System
 - Payment Gateway Integration (Optional Add-on)
 - Source Code
 - Database SQL File
 - Installation Guide
 - Deployment Support
-

18. Project Conclusion

Champions Edu is a lightweight yet scalable educational management platform designed for coaching centers and educational institutions. The application combines a professional public-facing website with dedicated portals for students, teachers, tutors, and administrators.

Built using **React.js**, **Raw PHP**, and **MySQL**, the platform focuses on essential educational workflows such as course management, attendance tracking, study material sharing, class management, tutor registration, and administrative control. Teacher registration supports secure online payment, with payment gateway setup and integration available as an additional service for **₹4,000**, covering account configuration, API integration, testing, and deployment.

This solution provides a clean, responsive, and efficient foundation that can be expanded with additional modules in the future as organizational needs grow.
